# floor planner

**Enhance your listings with Floorplanner**

## Bring your listing to the next dimension

With Floorplanner you can quickly create professional floor plans and publish them online. Prospective buyers can interact with these floor plans launched from your existing online property listing.

Buyers can create customized furniture layouts to confirm the space fits their needs. When users save or share they register and become identified prospects for your agents to contact.

## Why Floorplanner?

Over 1,2 million consumers & thousands of professionals worldwide have a Floorplanner account. Here's why:

- **Works in your browser, no software to install!**

- **Easiest and fastest floor plan drawing module around**

- **Looks fantastic in both 2D and 3D**

- **Easy to brand with your corporate identity**

- **Share plans online through email, link or social networks**

- **Furnish plans with high-quality items all on scale**

## Save costs on floorplans

Creating professional looking floor plans has never been easier when you use our fast 2D drawing system that is on scale and offers a wide range of objects to put in your plans

## Looks great in 2D & 3D

Make interactive 3D models from your 2D plans just by clicking a button. Our 3D view puts your plans in the best light from every angle, with no extra cost or effort.

## From visitors to buyers

Whenever a prospective buyer saves their own furniture layout on one of your plans, you will receive an email that allows you or your agents to contact the user directly.

The interactive plans will help buyers to visualize the potential of the property much better and reduces unnecessary showings

## Easy to setup & maintain

Setting up Floorplanner is fast and easy. In five minutes you'll be on board, branded, and are busy creating the best-looking floor plans available!

Out-of-the-box, Floorplanner includes over 2,000 high-quality scalable items and floor textures that will look good both in print as online.
